Doctor Says Pontiff Now in Death Agony

Both Heart, Breathing Giving In to Strain Of Illness, Age

CASTEL GANDOLFO, Italy (AP)-The life of Pius XII, Pope for 19 years of war and ideological strife, was ebbing away tonight. He suffered a second stroke during the day and later his physicians reported he was suffering

"a grave cardiac pulmonary collapse. This meant both his heart and breathing were giving in to the strain of illness intensified by the

weight of his 82 years. One of the physicians, while declining use of his name, said: "He is in his death agony."

bout some of the Red Chinese propaganda relative to the Far East situation and involving the U.S. protective attitude toward Nationalist China, that it is hard to see why it should not be plainly recognized for what it is.

The constant screams from Peiping, by TV and radio broadcast, and in other forms, indicate that our country is supplying Nationalist Chinese forces with the latest equipment in ordnance.

The Reds seem to think nothing of Moscow's shipments of military supplies to the Red Chinese legions, but when America's advanced weapons show up in the skirmishes in the Formosa Straits, the Red propaganda machine refers to it as an "international crime" of awesome pro-

The Red Chinese government expresses indignation because Nationalist jet pilots are using the American-made Sidewinder air-to-air missile in turning back MIG assaults. The Reds insist that the killer missile is one more "premeditated step in the U. S. plan of aggression" and "a military provocation of the utmost gravity." Old-fashioned machineguns and rapid-fire cannon evidently are acceptable weapons, in the Communist view; but they would have us believe that any-

The high-blown rage of Peiping may make light reading for some Americans. But there is a serious purpose behind it. "This is the first time in the annals of war," comments The People's Daily, voice of Asian Communism, "that guided missiles have been employed. U. S. imperialism has now confronted mankind with the danger of guided-missile and nuclear warfare." This approach to the introduction of massive retaliatory weapons in the Formosa war doubtless will have an effect on the peoples of mainland

Asians do not need to be reminded that the United States used the first nuclear bomb against Orientals. No matter what their sympathies, the fact that the United States also has supplied the first guided missile for use in an Asian battle theater may disturb Asians.

There is not turning back now; Washington is committed to giving Chinese Nationals a fighting chance against Peiping, and this requires modern weapons. But besides adding to the deadly nature of Formosan combat, employment of the Sidewinder may well add to Washington's difficulties in winning a propaganda advantage over Peiping in the Far East.

Red Chinese Propaganda against U.S.

There is something so inconsistent about some of the Red Chinese propaganda relative to the Far East situation and involving the U.S. protective attitude toward Nationalist China, that it is hard to see why it should not be plainly recognized for what it is.

The constant screams from Peiping, by TV and radio broadcast, and in other forms, indicate that our country is supplying Nationalist Chinese forces with the latest equipment in ordnance.

The Reds seem to think nothing of Moscow's shipments of military supplies to the Red Chinese legions, but when America's advanced weapons show up in the skirmishes in the Formosa Straits, the Red propaganda machine refers to it as an "international crime" of awesome pro-

The Red Chinese government expresses indignation because Nationalist jet pilots are using the American-made Sidewinder air-to-air missile in turning back MIG assaults. The Reds insist that the killer missile is one more "premeditated step in the U.S. plan of aggression" and "a military provocation of the utmost gravity." Old-fashioned machineguns and rapid-fire cannon evidently are acceptable weapons, in the Communist view; but they would have us believe that any-

The high-blown rage of Peiping may make light reading for some Americans. But there is a serious purpose behind it. "This is the first time in the annals of war," comments The People's Daily, voice of Asian Communism, "that guided missiles have been employed. U. S. imperialism has now confronted mankind with the danger of guided-missile and nuclear warfare." This approach to the introduction of massive retaliatory weapons in the Formosa war doubtless will have an effect on the peoples of mainland

Asians do not need to be reminded that the United States used the first nuclear bomb against Orientals. No matter what their sympathies, the fact that the United States also has supplied the first guided missile for use in an Asian battle theater may disturb Asians.

There is not turning back now; Washington is committed to giving Chinese Nationals a fighting chance against Peiping, and this requires modern weapons. But besides adding to the deadly nature of Formosan combat, employment of the Sidewinder may well add to Washington's difficulties in winning a propaganda advantage over Peiping in the Far East.

THAT SUPER HIGHWAY!

I still pick up information which clearly indicates the big superhighway extending from Cleveland to Cincinnati through Fayette County, which will largely supplant the CCC Highway as a main route, will cross Fayette County diagonal ly in the northern part.

Two or three routes have been considered across the county, but only recently engineers were busy making another survey and "staking it off" across the northern section of the area.

This would strike Fayette County about two miles east of Route 38, cross 38 (Bloomingburg and Sedalia Rd.) between the Blue and Green roads a mile north of Yatesville, cross the Brock, or Woods, Rd. near East Fork of Paint Creek; then run southwestward, crossing the Prairie Rd. at the V F. Crawford farm, intersect State Rd. (Route 734) at the intersection of Route 70, a half mile east of Jeffersonville: and cross Route 35 (Dayton Rd.) near roadside park at West Lancaster, then pass between Edgefield and Octa to enter Greene County.

While efforts have been made in this city to have the route pass a short distance north of Washington C. H., latest information, which however, has not been announced officially, is that the more direct route across northern Fayette has been decided upon.

Tax Laws, Automation Get Credit for Boom In New Procedure

NEW YORK (AP) - Leasing equipment for a factory of store instead of buying outright has won new adherents in the recession and today is reported more appealing than ever to businessmen eyeing the recovery under way. It is the latest comer to this

field of business management, joining the better known forms of leasing cars, trucks or real estate.

Tax laws have given leasing one of its biggest boosts. But the rate at which automation and scientific research have made older machinery obsolescent is tempting still more companies to look into the leasing method of financing the retooling of plants with expensive but competitive machinery.

Long-term equipment leasing (for three years or more) has grown since 1950 and is now estimated to be a 166 million dollar reach the billion dollar a year mark within five years.

WANTED: Lady roomers. 433 E. Court Phoe 7681. 20

IN MEMORIAM In loving memory of our husband and father, Frank W. Welsh, who passed away October 8, 1957. The World may change from year to

year And friends from day to day But never will the one we love But hever will the one we love From memory pass away.
They say time heals all sorrows And nelps us to forget But time so far has only proved How much we miss him yet.
God gave us strength and courage To face the awful blow But what it meant to lose him But what it measure.
No one will ever know.

WANTED: Lady roomers. 433 E. Court Phoe 7681. 20 IN MEMORIAM

year And friends from day to day But never will the one we love But never will the one we love
From memory pass away.
They say time heals all sorrows
And nelps us to forget
But time so far has only proved
How much we miss him yet.
God gave us strength and courage
To face the awful blow
But what it meant to lose him
No one will ever know.
